SUMMARY

Software Engineering Technician student at Centennial College with hands-on experience building React web interfaces and Java applications. Developing practical skills in front-end development, programming, databases, version control, and problem solving.

EDUCATION

Centennial College - Software Engineering Technician

Toronto, Ontario | 2026 - Present

Relevant study includes web application development, Java, C#/.NET, databases, and software engineering.

TECHNICAL SKILLS

Front End	React, JavaScript, HTML, CSS
Programming	Java, C#
Database	SQL
Tools	Git, GitHub, Vite, VS Code, Eclipse

PROJECTS

React Personal Portfolio | React, Vite

Designed and developed a responsive multi-page personal portfolio with reusable React components, navigation, styling, project showcases, education, services, and a contact form.

Java Dice Game | Java

Built a four-dice console game using random values, conditionals, loops, methods, win/loss rules, and a goal-number mechanic. Managed project code with Git/GitHub.

Interactive React Forms | React, JavaScript

Created controlled inputs and interactive form components while practicing React state management, event handling, validation, dropdowns, and checkboxes.

ADDITIONAL

Currently building software-development skills through coursework, labs, and personal projects. Portfolio source code and additional work are available on GitHub.
